

FOR IMMEDIATE RELEASE

Select Security Completes Acquisition of Hazleton-Based SecurityNet LLC

Lancaster, PA and Hazleton, PA, March 7, 2008 – Select Security has merged the assets of Hazleton-based SecurityNet LLC with Lancaster-based Select Security, allowing us to increase our growing presence in the Central Pennsylvania region.

SecurityNet LLC, formerly known as Solid State Securities, is a 20-year old company based in the Hazleton area. Customers will be serviced from our Williamsport office, and we have retained SecurityNet's employees.

Kimberly Mehalshick, owner of SecurityNet LLC, says, "this change reflects SecurityNet's commitment to ensure the continued protection of your home or business.

The high quality of service you have come to expect from SecurityNet LLC will continue without interruption."

The acquisition was completed February 29, 2008, and Select Security obtains the entire base of SecurityNet's residential and commercial customers. Alarm systems will now be monitored by Select Security in their CSAA 5 Diamond Certified Central Monitoring Station. The monitoring station is Underwriters Laboratories (UL) listed and Factory Mutual (FM) approved, which ensures compliance with the highest standards for response time, automated record keeping, and alarm response procedures.

Select Security serves much of the Central Pennsylvania region with offices in Williamsport, Lock Haven and Altoona, and had been looking for acquisition candidates in the Wilkes-Barre/Scranton/Hazleton area. SecurityNet LLC customers will be given the same high quality of service they have come to expect from their security company.

ABOUT SELECT SECURITY - With over 35 years of experience and expertise, Select Security helps our customers find affordable systems customized to meet your specific needs. We offer traditional intrusion detection and fire alarm protection, Digital Video Surveillance, and Access Control Systems. Select Security has a "Best in Class" Customer Care & Service Center and offers 24/7 monitoring in our Underwriters Laboratories listed and Factory Mutual approved Central Monitoring Station. Our certifications ensure compliance with the highest standards for response time, automated record keeping and alarm response procedures.
